JOIN US FOR
SUMMER FUN
2019

JUNE 12 - AUGUST 23
10+ Weeks of Hands-On Science Camps for Youth Pre-K Through Rising 9th Grade
CAMP STRUCTURE
Camps are offered throughout the summer, each one lasting a week. There are a total of 10 1/2 weeks of camp programs offered at the Catawba Science Center in the West Educational Building. Children can attend our SciFun classes each day from 10:00 am to noon. We also provide extended day options for an additional price. Choose the options that fit your schedule and your child’s interest. Your child may even attend Sunrise Science and/or Afternoon Adventures without registering for a SciFun class during the same week for an increased fee.

SUNRISE SCIENCE
PRE-K* – 9TH GRADE
MONDAY – FRIDAY, 7:30 AM – 10:00 AM
Available for 4-year-olds to rising ninth-graders. Supervised independent learning experiences, science related games and exhibit visits before CSC opens to the public!
Member Cost: $20**, Non-member cost: $25**
(Week of June 12-14: Member cost: $12, Non-member cost: $15
Week of July 1-3, 5: Member cost: $16, Non-member cost: $20)

SUMMER FUN SCIFUN CLASSES
PRE-K* – 9TH GRADE
MONDAY – FRIDAY, 10:00 AM  – 12:00 PM Choose from 10+ weeks of exciting and fun-filled science classes designed for specific age groups. Each week features a different class theme, with all activities centered on that topic. Registration is first-come, first-served by prepayment. Cost varies by week and topic. Each SciFun camper will receive a free t-shirt.
Special Offer: Pay for 6 SciFun classes per camper and get a 7th class free! Class based on availability.

*Pre-K participants must be at least 4 years of age.

AFTERNOON ADVENTURES
1ST – 9TH GRADE
MONDAY – FRIDAY, 12:00 PM – 5:30 PM
Supervised activities include indoor and outdoor games, scavenger hunts, and themed parties. Enrolled participants will go on field trips to great local attractions: swimming at YMCA, watch movies at Carolina Theatre, take walks at City of Hickory parks, have story time at Patrick Beaver Memorial Library (young campers), and bowl at Pin Station (older campers). Activities will vary each week and will keep campers entertained and wanting to come back for more Summer Fun. The schedule of planned activities will be available at the start of each week.
Member cost: $75**, Non-member cost: $100**
(Week of June 12-14: Member Cost: $45, Non-member cost: $60
Week of July 1-3, 5: Member Cost: $60, Non-member cost: $80)

Late Registration Fee
A late fee of $5 per child will be charged for registrations made less than one week prior to camp.

**An additional charge is required when registering for Sunrise Science and Afternoon Adventures without SciFun classes.

SCHOLARSHIP AVAILABLE!
Visit www.CatawbaScience.org/scholarships-discounts for more info on Family to Family Scholarships
PRE-K – KINDERGARTEN

Week 1 – June 12-14 (3 day week)
On the Go — We zoom around in cars, boats, trains, and planes, and there is much to learn from them! Make tire track art and ride through a pretend carwash.
Member cost: $51, Non-member cost: $66

Week 2 – June 17-21
Sticky Icky Science — Stir, mix, and shake your way to create some sticky icky science creations. Make slime to ooze through your fingers while you learn about solids, liquids, and gases.
Member cost: $85, Non-member cost: $110

Week 3 – June 24-28
Creek Critters — Let’s investigate water and what lives in local creeks. Trek over to McComb Park in your rain boots or water shoes and explore the creek! Make a ‘stained glass’ dragonfly.
Member cost: $85, Non-member cost: $110

Week 4 – July 1-3, 5 (4 day week)
Not So Secret Life of Pets — Practice your numbers, shapes, and letters while learning about birds, hamsters, fish, cats, and dogs! Craft a Pete the Cat.
Member cost: $68, Non-member cost: $88

Week 5 – July 8-12
Good Morning Sun, Good Morning Moon — Did you know sometimes you can see the moon during the day? Learn about our sun and moon while catching rays and making craters.
Member cost: $85, Non-member cost: $110

Week 6 – July 15-19
All About Me! — Your fingerprints, eyes, and smile are unique, just like you! Paint what you see in the mirror, on a mirror. Make art with the letters of your name.
Member cost: $85, Non-member cost: $110

Week 7 – July 22-26
Flutterby! — Discover the wonder of fluttering moths and butterflies. Investigate the mysteries of butterfly life cycles while visiting the Flutterby Butterfly Habitat. Make a butterfly feeder.
Member cost: $85, Non-member cost: $110

Week 8 – July 29-Aug 2
Little Dinos — So many dinosaurs, so little time. Dig for dinosaur fossils and see how you compare to the size of an Apatosaurus. Make your own dino discovery bottle to take home!
Member cost: $85, Non-member cost: $110

Week 9 – Aug 5-9
Science in Motion — The adventure begins when the movement starts. Make mobiles and gliders to learn all about the science of motion.
Member cost: $85, Non-member cost: $110

Week 10 –Aug 12-16
Dora’s Explorers — Easy as uno, dos, tres! Help Dora read the map and overcome obstacles while learning about Central American wildlife and exploring stars. Make a miniature piñata to take home!
Member cost: $85, Non-member cost: $110

Week 11 – Aug 19-23
Color My World — Who or what is ROY G BIV? How is a rainbow made? Find out the answers to these questions and more as you create a watercolor rainbow and make your own playdough to take home.
Member cost: $85, Non-member cost: $110
RISING 1ST – 3RD GRADES

Week 1 – June 12-14 (3 day week)
Cool Tools — Use tools to help build, cook, create, and investigate the world around us. Make a tool belt to take home and ‘bake’ some playdough cookies.
Member cost: $51, Non-member cost: $66

Week 2 – June 17-21
Backyard Bugs — Enter the world of thoraxes, abdomens, and antennae. Discover the insects that live in your backyard and investigate their part in Earth’s ecology. Visit the CSC’s Flutterby Butterfly Habitat.
Member cost: $85, Non-member cost: $110

Week 2 – June 17-21 — Option 2
Tech Class — Hours and Hours of Code — In a blend of both computer work and hands-on activities, learn the basics of computer programming. Create programs with sequencing, loops, and events with characters from Angry Birds, Star Wars, and Minecraft.
Member cost: $90, Non-member cost: $115

Week 3 – June 24-28
Kooky Chemistry — Get all mixed up combining simple ingredients to make your own bouncy balls and a soda fountain. Explore states of matter and temperature while making your own sherbet.
Member cost: $85, Non-member cost: $110

Week 4 – July 1-3, 5 (4 day week)
Precipitation Education — There’s more to the water cycle than evaporation, condensation, and precipitation. View tiny holes on leaves that release water vapor into the water cycle with a microscope and create a snowstorm in a test tube.
Member cost: $68, Non-member cost: $88

Week 5 – July 8-12
African Safari — Explore the land where many endangered animals live. Find out how elephants, rhinoceroses, and cheetahs survive in hot, dry savanna habitats. Create your very own African animal art to take home.
Member cost: $85, Non-member cost: $110

Week 6 – July 15-19
Apollo’bout the Moon — As we celebrate the Apollo missions and the 50th anniversary of the first landing on the moon, capture the excitement of the race to space with models and activities about the moon and the missions. Make an edible moon rover!
Member cost: $85, Non-member cost: $110

Week 7 – July 22-26
Super Structures — Castles, towers, pyramids, pentagons, and forts are all explored in this exciting week. Learn about the many different architectural styles of the world while building your own incredible structures. Visit CSC’s exhibit Imagine. Design. Play.
Member cost: $85, Non-member cost: $110

Week 8 – July 29-Aug 2
Electrons on the Move — Experiment with magnets, electricity, currents, and more. Investigate the ability of electric circuits to produce light, heat, sound, and magnetic effects. Have ‘hair-raising’ fun with a Van de Graaff generator and static wands.
Member cost: $85, Non-member cost: $110

Week 9 – Aug 5-9
Nature’s Nocturne — Follow the noises in the forest at night to find the animals that create a symphony of sounds. Investigate their highly-developed senses of hearing, smell, and eyesight. Create your own nocturnal friend to take home.
Member cost: $85, Non-member cost: $110

Week 10 – Aug 12-16
Gross Out — Get ready to perform loads of gross, but fantastic, experiments. Why do humans have snot and why do we pass gas? What is rhinotillexomania? Answer these questions and more about bodily functions that happen every day. Watch Grossology and You in the Millholland Planetarium.
Member cost: $85, Non-member cost: $110

Week 11 – Aug 19-23
Earth’s Magic Tricks — Our planet can do many cool things like shake and spew. Learn about geysers, caves, earthquakes, and volcanoes. Make a stalactite to take home and a soda Old Faithful.
Member cost: $85, Non-member cost: $110
**RISING 4TH - 6TH GRADES**

**Week 1 – June 12-14 (3 day week)**
*Science Around the World* — Skip around the world to explore the genetics of four leaf clovers, the auroras seen from the earth’s poles, spices from India, and sea turtles from oceans around the world.
*Member cost: $51, Non-member cost: $66*

**Week 2 – June 17-21**
*Candy Crush* — Explore scientific topics such as heat transfer, osmosis, acids and bases, and density with candy and other yummy food. Design and perform your own scientific experiment with candy. Make some rock candy to take home!
*Member cost: $85, Non-member cost: $110*

**Week 3 – June 24-28**
*What’s Your Name?* — Learn about scientific classification by identifying trees, snakes, insects, and more. Delve deeper into the science of taxonomy and anatomy. Dissect a snake.
*Member cost: $95, Non-member cost: $120*

**Week 4 – July 1-3, 5 (4 day week)**
*Earth Phenomena* — Explore some of the wonders of our earth, like fire tornadoes and bioluminescent beaches, through technology and hands-on investigation. Explore with Google Cardboard to see augmented reality of these phenomenon.
*Member cost: $68, Non-member cost: $88*

**Week 5 – July 8-12**
*Apollo Anniversary* — Commemorate the 50th anniversary of the Apollo moon missions by engineering devices that represent the many steps of space exploration from launch to landing.
*Member cost: $85, Non-member cost: $110*

**Week 6 – July 15-19**
*Amazing Arthropods* — Explore this class of animals that include insects, arachnids, millipedes, and crustaceans. Meet some of CSC’s arthropod residents and visit the Flutterby Butterfly Habitat.
*Member cost: $85, Non-member cost: $110*

**Week 6 – July 15-19 – Option 2**
*Tech Class — Hours and Hours of Code* — In a blend of both computer work and hands-on activities, learn the basics of computer programming. Create programs with sequencing, loops, and events, with characters from the movie Ice Age, and Minecraft.
*Member cost: $90, Non-member cost: $115*

**Week 7 – July 22-26**
*Electrical K’Nections* — Use K’Nex, mini motors, gears, and pulleys to create toys and other contraptions. Take home a toy car kit with motor.
*Member cost: $95, Non-member cost: $120*

**Week 8 – July 29-Aug 2**
*Wonders of Chemistry* — How does silly string work? Why is the statue of liberty green? What is the chemistry behind food, money, and trash? Answer these questions and more with hands-on exploration of chemistry!
*Member cost: $85, Non-member cost: $110*

**Week 9 – Aug 5-9**
*Seafood Surgery* — Learn about marine conservation and explore the anatomy, physiology, and behavior of several marine animals through live observation and dissection. Visit a seafood business in this tasty class!
*Member cost: $95, Non-member cost: $120*

**Week 10 – Aug 12-16**
*Is There A Doctor In The House?* — We’ve all been to see a doctor, but what does it take to become one? Delve into the inner-workings of the human body and explore how organs function. Dissect a pig heart. Speak with a visiting physician.
*Member cost: $88, Non-member cost: $113*

**Week 10 – Aug 12-16 – Option 2**
*Tech Class — A New View* — For hundreds of years, people have experimented with optical phenomena, creating ‘toys’ that influence light, color, and shadow. Take part in similar explorations by making a room-sized camera obscura, a cell-phone-sized hologram, and a virtual reality tour of a CSC exhibit.
*Member cost: $100, Non-member cost: $125*

**Week 11 – Aug 19-23**
*Lands Down Under* — G’day mate! Take a week-long trip “Down Under” and discover the science and wildlife of Australia and New Zealand. Taste some Aussie food, explore the Great Barrier Reef, and investigate the physics of boomerangs and didgeridoos!
*Member cost: $85, Non-member cost: $110*
RISING 7TH - 9TH GRADES
*Field trips may extend beyond two hour class period.

Week 2 – June 17-21
Wet ‘n Wild Water Quality — Water moves through both living and non-living systems and binds them together in a complex web of life. Investigate this important relationship by taking a boat tour of Lake Hickory to test the quality of our nearest freshwater source and create a device to filter contaminate.
Member cost: $100, Non-member cost: $125

Week 3 – June 24-28
Tech Class — Forces of Flight — Through experimentation learn about motion and transfer of energy as you explore the basics of aeronautics. The week will include a visit to Hickory Regional Airport and 3-D printing part of a mini model airplane.
Member cost: $100, Non-member cost: $125

Week 5 – July 8-12
Disaster Master — Learn how to prepare yourself for all kinds of disasters, ranging from earthquakes to a zombie apocalypse. Dissect a brain. Visit Duke Energy Explorium.
Member cost: $93, Non-member cost: $118

Week 6 – July 15-19
Apollo and Beyond — This is the 50th anniversary of the Apollo moon landing and there is no telling how far we will be in space colonization 50 years from now. Investigate the tools of space exploration and settlement by engineering models of a sustainable human settlement fit for the moon.
Member cost: $85, Non-member cost: $110

Week 7 – July 22-26
Materials Discovery — This ASM Materials Education Foundation® course allows you to discover how materials shape your world. Manipulate and test a variety of materials such as metals, ceramics, polymers, and composites. Meet a materials scientist.
Member cost: $95, Non-member cost: $120

Week 9 – Aug 5-9
Spellbinding Science — Enter the wizardly world of Harry Potter to study astronomy, potions, and fantastic beasts. Fun for wizards and muggles alike.
Member cost: $85, Non-member cost: $110

Week 10 – Aug 12-16
Biology For Life — Have you ever wondered why you need to learn biology? Come find out why in this jam-packed class exploring vital topics such as acid rain, epidemiology, and genetics.
Member cost: $85, Non-member cost: $110
CSC SUMMER FUN 2019 REGISTRATION

Remember to complete a separate application for EACH child. Photocopies are acceptable or download additional forms at www.CatawbaScience.org. Return the completed form with payment to: CSC, PO Box 2431, Hickory, NC 28603 or fax to (828) 322-1585. Email to scheduling@CatawbaScience.org

SUMMER FUN 2019
PAYMENT PLAN CONTRACT

Please choose the option which will work best with your schedule, check the corresponding box and sign this form signifying your agreement to our conditions.

☐ Monthly Installments: Pay for your Summer Fun programs at the beginning of each month. After registering and paying for at least two weeks as down payment, the total for your monthly participation will be determined on an individualized schedule.

☐ Weekly Installments: After registering and paying for two weeks of camps, camps can be paid for in weekly increments at least two weeks prior to participation in the camp.

Any exceptions to the payment plan must be approved in advance, in writing, by the Director of Programs.

If payments are not kept current, your child(ren) will not be permitted to participate in Summer Fun programs until paid.

To simplify the payment process, we can automatically draft your credit card for the amount arranged per your contract choice.

☐ I agree to have my Summer Fun balance automatically drafted on my credit card on the chosen payment plan schedule.

By signing this contract, I agree to pay for Summer Fun programs in the indicated timely manner.

Scholarships for Summer Fun camp are also available. For more information, please visit www.CatawbaScience.org/scholarships-discounts or call (828) 322-8169.

Membership fees are not included in payment plans and must be paid in full upon registration to receive the discount. Please remember that memberships to other ASTC museums are not eligible for this discount. Corporate members must pay a $20 upgrade fee to a Family, Grandparent, or higher level membership to receive this discount. Corporate upgrades must include copy of corporate membership card and proof of employment. To receive member rate, applicants must maintain an active CSC membership throughout the entire time child(ren) will attend camp.

For office use only*
CAMP LOCATION
Summer Fun activities are primarily located in the West Education Building. During the mornings and afternoons, campers have a ‘home base’ classroom with other similarly aged campers. During these times, campers may be in CSC exhibits or outside on the SALT Block’s grounds in addition to field trips during the afternoon. SciFun classes are also held in West Education Building. Class field trips will be noted in the description.

CHECK-IN/SIGN-OUT POLICY
All children must be checked in and signed out by a parent or authorized adult. All check-in takes place in the lobby of the West Education Building. For the security of all children, you must sign out those attending only SciFun Classes in their individual classrooms. Please call ahead if you are not familiar with classroom locations. Parents with special needs may ask for exceptions to this procedure. Please call CSC’s Public Programs Coordinator to make advance arrangements.

LUNCHES AND SNACKS
Campers attending the Summer Fun Afternoon Adventures must bring a bag lunch and drink. Microwave and refrigerator are not available for campers’ use. Additional snacks are highly recommended. Children participating in the Sunrise Science are also encouraged to bring a small snack and water bottle.

PROHIBITED ITEMS
For the safety of children and their belongings, we request that Summer Fun participants do not bring any electronic devices. If cell phones are parent-approved, they must be kept out of sight at all times. Also prohibited are shoes with wheels.

PARKING POLICY
When checking in or picking up your child, you must park in a designated parking space. Please do not stop your vehicle in the driveway. Parking is available in the North and South Lobby entrance areas and along Third Ave NE in front of the buildings.
