

SCRAMBLE

An official 2025 North Carolina Science Festival event, among hundreds of community-based events that are showcasing STEM (science, technology, engineering, and mathematics) activities for the citizens of North Carolina. [Learn more at www.ncscifest.org](http://www.ncscifest.org).

CLUES

LENOIR

- Start your hunt by getting a *card* at this amazing community building, filled with STEM resources galore - even launchpads to check out!
- Come here for **bodacious family entertainment** and physics fun. Let's hope for a *strike*!
- Spin, spin, spin the black circle! After finding this location, it will be time to drop the needle and listen loudly (even if the **dead** hear)!
- Chores must sometimes be done - find the tools, paints, and other **wares** needed to complete the **hard** work here! Protective gear may be needed but not **shields**.
- I scream, you scream, we all scream it's time for a treat! Hopefully we find the sign before the treat melts; we can't **freeze** it again, that just isn't how it works.
- **Working** (and school) day is done, time for *hobbies*! If you need more *skeins* find this downtown Lenoir shop.
- Slide into one of these community spots where ball playing, swinging, splashing, and climbing demonstrate physics principles galore! (Two signs to be found but only one playing card square can be filled for these *Parks & Recreation* locations - **mull** your choices carefully.)
- Need a jolt to make it through this **Carolina** day? Find brewed goodness here (beverage can be iced or hot, for traditionalists).
- Cheers to **liquids** brewed here! Find this downtown location to enjoy a *pint*.
- Do your **roots** need attention? Find help for your hair at this downtown **salon**.

FIND THEM ALL!

At each location, directions here will let you know how to prove you found the site! This QR Code brings you to this website to review the rules and regulations.
